

Amendments to the Specification:

Please amend the Abstract of the Specification (page 33 of the specification) as follows:

~~Provided are a prepreg~~ A prepreg of for FRP (fiber reinforced plastic) having with
~~which comprises~~ (i) a matrix resin composition containing a bifunctional isocyanate and/or a
trifunctional isocyanate, a polyol and a bifunctional chain extender having two active
hydrogen groups at a molar ratio, as a functional group, of isocyanate:polyol:chain
extender=5.0 to 1.0:1.0:4.0 to 0, or containing a bifunctional isocyanate and/or a trifunctional
isocyanate and a polyol at a molar ratio, as a functional group, of liquid isocyanate:polyol=0.9
to 1.1:1.0; and (ii) a fibrous material, [[;]] ~~and a~~ A production process of the prepreg.
According to the present invention, the prepreg ~~for FRP~~ has a sufficient pot life and permits
convenient production of an FRP molding.
